

# Hvidovre Hospital

## Overall Wayfinding Systematics

[www.triagonal.dk](http://www.triagonal.dk)

In preparation for a large extension of Hvidovre Hospital, Triagonal has developed a wayfinding model and an information concept based on a reduced number of clearly marked reception points and simple colour coding. As patients and relatives tend to be tense when arriving, focus was on personal service, simplicity and clarity of information both online, in print, in calls and in the complex architecture of the hospital.

<b>Client</b>	Hvidovre Hospital
<b>Location</b>	Hvidovre, Denmark
<b>Project Period</b>	2009 - 2013
<b>Team</b>	Peter Donner Tina Ravbjerg
