## Shopping Centre Wayfinding

[www.triagonal.dk](http://www.triagonal.dk)

Triagonal®

The initial signage concept of this shopping center was designed by Triagonal in 2004. In 2013 the center was expanded with a new building "Rotunden", and the transparent signs concept continued. Rødovre Centrum is the city center of the suburban town Rødovre and also houses several public functions – e.g. a large medical center and outpatient clinics, a cinema and a post office.
