

# Regionshospitalet Horsens Wayfinding Systematic

[www.triagonal.dk](http://www.triagonal.dk)

Triagonal®

Triagonal is currently developing wayfinding systematic and information design for Regionshospitalet Horsens. The physical environment and the different patient flows has been analyzed in collaboration with patients and health professionals. The next years, the hospital will be expanded and renovated, which results in new flows and user behavior. The project aims at developing flexible solutions that will ensure optimal navigation through the current and the future hospital setting.
