## New Terminal 4 Wayfinding

[www.triagonal.info](http://www.triagonal.info)

Cancun is expanding with the new Terminal 4, and Triagonal has developed the wayfinding strategy in cooperation with Copenhagen Airport International. We have analyzed passenger flows, revised the airport's signage graphics, and designed a range of information elements. The signage has been coordinated with the advertising to ensure optimal passenger flows through both arrivals, departures, and onwards travel.
